The arrest of Stevens, it is thought, will be the means of an earthshaking gigantic swindle that has been going on for the past 17 years. The charge is that of using the mails for fraudulent purposes.

The Grecian Bend.

The editor of the Dress Makers' Convention that women must once more assume the distortion of the 'Grecian Bend' is not an unkindly evil. The fad we all laughed at 30 years ago was merely a good idea gone wrong in exaggeration.

The common fault is the careless attitude both of men and women, is the 'swayback slouch.' The frightful example of this offense stands inelastic on its heels with stomach protruding and his chin drooping lazily upon his flattened chest. The enlightened, passing him with a shudder, declare that our men are not well 'set up.' There is a suspicion that women would more often fall under the same criticism but for the kinder concealment of their draperies.

A Greek statue, or a statue of any age representing strength or grace, is poised lightly upon the ball of the foot, the chest expanded, the head erect, the hips well drawn back. This is the correct and seemingly the hygienic pose, which the dancing master, the drill sergeant, and the gymnasium instructor all hold up with slight modification for imitation. The distorted 'Grecian Bend' is not further from the ideal in one direction than the 'sway back slouch' is in the other, and perhaps a few months' cult of the 'bend' by lifelong devotees of the 'slouch' will help them to appreciate and to cultivate the golden mean.—New York World.

It Never Disappoints.

Ballots were cast by 199,000 miners in the bituminous coal region of Pennsylvania on the proposition of the operators to reduce the wage scale 54 per cent. The indications point to an acceptance of the proposition which carries with it a two years' contract, thus forestalling a strike for that length of time.

CURES WITHOUT STOMACH DOSING.

Hyomei Cures Catarrh by Simple Breathing. Penny refunds Money if it Fails to Cure.

A long stride toward solving the mystery of curing catarrh was taken with the discovery of Hyomei. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomei was known, had they a practical method that would obviate stomach dosing.

A complete Hyomei outfit costs but \$1, and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomei.

Breathing Hyomei through the inhaler, every particle of air that enters the nose, throat and lungs, is charged with a healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

Mr. Penny has so much faith in the power of Hyomei to cure catarrh that he is selling it under a personal guarantee to refund the money if it does not give positive relief.

Mr. Geo. Bardett has returned to Chicago after a visit to friends here. He says he wonders how any one ever has the courage to leave Lancaster, that her people are the best looking, best dressed and best in all the world. Mr. Bardett's friends trust he will soon return for such words are pleasant to hear. Miss Fannie Doty is visiting in Richmond. Miss Virginia Thomson, after a visit to Miss Mary Burnside, has returned to her home near Frankfort. Mrs. A. H. Bastin has returned from a visit to friends in Paris.

Judge Bell, of Harrodsburg, occupied his official seat for the first time on Monday morning at 10 o'clock. Most Rothwell took the oath of Master Commissioner and Sautley Hughes was sworn in as Trustee of the Jury Fund. Frank Pierce was awarded control of the alms house. The grand jury found things in good order and no summons were issued to parties so often supposed to know all about things of that kind.

The dedication of the pipe organ at the Christian church Friday evening will be one of the choicest musical events ever given to the people of this community. "DO IT TO DAY"—The time-worn injunction, "Never put off 'til tomorrow what you can do to day," is now generally presented in this: "Do it to-day." That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.

Walton's INTERIOR JOURNAL was 32 years old March 1st and we failed for the first time to note it in these columns, but felt the usual throbbing pleasure and pride that "our daughter" had grown so beautiful and strong and useful.—Somerset Journal.
